

DOUBLE SPIRAL CONVEYORS

Technical data

Standard materials for trough and supports are stainless steel 1.4301 or 1.4571 glass bead blasted as well as hot-dip galvanized steel and painted steel. The sliding insert is a plastic shell made of PE 1000 or flat steel rails made of Hardox 400.

Type	Trough clear width	Mean height	Overall height	Spiral diameter
UU-260	526	140	315	2 x 220
UU-320	646	170	375	2 x 285
UU-350	714	200	422	2 x 320
UU-420	848	210	470	2 x 390
UU-520	1048	285	595	2 x 490
